PROFILE SUMMARY:

As a Fresher, Aspiring Frontend Developer passionate about crafting intuitive and dynamic user interfaces using modern web technologies. Seeking opportunities to leverage my skills in HTML, CSS, React.js, Bootstrap and JavaScript to create impactful user experiences.

EDUCATION:

- DBS Institute of Technology, Kavali** **2020-2024**
B. Tech (Computer Science and Engineering) **CGPA: 7.8**

INTERSHIP:

- Blogging Platform using ReactJs , Sun Square Technology | Nellore , AP** **AUG-OCT, 2023**
Part of Front-end Web development team and working with Html, CSS, JavaScript, React Js, Bootstrap and Worked on Development based team Project.
Built a responsive blogging platform where users can create, edit, and delete blog posts.
Designed layouts and implemented styling with CSS and frameworks like Bootstrap to enhance responsiveness and cross-browser compatibility.
- E-Commerce Website Development | Html, CSS, JavaScript**
Designed and developed a fully functional e-commerce website with responsive UI using HTML and CSS.
Implemented key features including product listings, shopping cart functionality, and dynamic content updates with vanilla JavaScript.
Focused on user experience with intuitive navigation, search functionality, and mobile responsiveness.
Demonstrated front-end development skills through clean code, modular structure, and cross-browser compatibility.

PROJECTS:

- LX KELVIN Grocery Delivery Web Application (In Progress) | ReactJS**
Developing a modern, responsive **grocery delivery platform** using **React** and **Tailwind CSS**, focused on a seamless shopping experience with optimized UI for both desktop and mobile.
Implementing **state management** using **Redux Toolkit** to handle cart operations, product listings, and user interactions efficiently and scalably.
Building key features like **product search and filter**, **cart and checkout flows**, and **real-time order tracking interface**, ensuring smooth navigation and a clean, intuitive user experience.
- MULTI LEVEL MARKETING | React Native**
Built a cross-platform mobile application frontend using **React Native**, focused on engaging users in **multi-level marketing (MLM)** with integrated social wellness goals.
Designed and implemented two distinct UI flows: **Admin Dashboard** (user management, referral tracking, and payouts) and **Customer Dashboard** (referrals, rewards, withdrawals).
Developed interactive components for **adding, editing, and deleting customers**, as well as dynamic displays for **activity logs**, **referral earnings**, and **user engagement stats**.

Focused on **responsive design, reusable components**, and seamless **user experience (UX)** to support milestone rewards, referral sharing, and wallet features

- **FAKE NEWS DETECTION USING MACHINE LEARNING APPROACH**

Developed a fake news detecting machine using the machine learning for spreading of the fake news rapidly.

Collaborated with a team of X members to design and implement the solution.

Deployed the trained model using Flask to provide a user-friendly interface for predicting news authenticity.

(Keywords: Decision Tree, Random forest, XGBoost, performance Analysis) these algorithms used for predicting the accuracy of news whether it is true or not.

We use machine learning packages available in the scikit-learn library.

TECHNICAL SKILLS:

- Programming Languages: Java (Basics).
- Technologies: HTML, CSS, JavaScript, Tailwind CSS, Bootstrap, ReactJs, Redux.
- Frameworks: React Native.
- Developer Tools: VS Code, Git, GitHub.

SOFT SKILLS:

- Problem-solving
- Adaptability
- Communication
- Team working
- Time management

CERTIFICATIONS:

- Certified in Front-end web developer internship at Sun Square Technologies
- Certified in Cloud Computing Professional Certification by NPTEL.
- Certified in Java Programming at CodSoft.
- Certification in Java Full Stack Development at 10k Coders.
